

NAME _____ DATE _____

Describe your study plot:

List the nonliving things in your plot:

Predict what life forms (if any) you will find in your plot:

Use the chart below to record the life forms you find in your plot. Use words, pictures, or both.

Plant, Animal, or Other	Where Found	Size, Shape, and Color of Life Form (or Sign of Life Form)	Other Observations	Number Found (Count or Estimate)

CAREER CORNER

TOUR GUIDES are experts on a specific place or region. They may lead visitors to national parks, local trails, or museums. When they are guiding visitors on a trail, they point out animals, plants, and other features and answer questions about the area.

I LOVE MY
GREEN JOB!
