

NAME _____ DATE _____

Sort seeds. Sort your seeds into two or three groups. All the seeds in a group must be alike in some way.

Create a bar graph. Label the categories on the bottom of the chart. Start at the bottom with 1. Place your seeds on top of the chart, one per box. Color in the boxes that contain seeds.

CAREER CORNER

BOTANISTS (BOT-uh-nists) are scientists who study plants. They may look at the shapes of seeds and fruits to learn how these parts help plants live and grow.
